
Activity Coefficients Electrolyte Solutions Volume

solubility of caso4 - university of massachusetts boston - prepared using an electrolyte of high ionic strength. as a result, all of the solutions have the same ionic strength and, as a result, the activity coefficient becomes a constant. **a guide to ion selective measurement - mettler toledo** - page section 1 ion selective measurement 4 basic theory 4 selectivity, interferences, activity 5 types of electrode 6 section 2 methods of analysis 9 **thermodynamic models & physical properties** - 27 3. activity coefficient models: for non-ideal liquid solutions, the fugacity of the components in the solution deviates from that of the pure component.
